### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by USPN 5,758,392 to Anscher et al. Anscher et al (Fig. 7) discloses a hook (1) for a cargo net, the hook comprising a planar attachment portion (11) for attachment to the cargo net (i.e. line or cord), the attachment portion defining a longitudinal axis; a planar supporting portion (10) which extends from the attachment portion in a direction of the longitudinal axis and which is generally coplanar with the attachment portion, the supporting portion defining an aperture there-through; and a retaining portion (30) which extends in a plane of the supporting portion, the retaining portion being resiliently deformable away from the plane of the supporting portion (as seen in Fig. 7) such that, in use, the retaining portion grips a projection to prevent the hook from being inadvertently released.

Referring to claims 2-4, Anscher et al discloses that the supporting portion further includes a boundary member (13) that extends about the aperture. The supporting portion has an elongate arcuate shape and extends from a base portion (12) connected with the attachment portion to a tip portion (14) thereby defining the arcuate aperture, wherein the retaining portion extends from the base portion towards the tip portion.

Art Unit: 3677

### **Allowable Subject Matter**

Claims 5-9 were previously recorded as being allowed.

New claims 11 and 12 are allowed over the prior art made of record.

### **Response to Applicant's Arguments**

Applicant's arguments filed in Amendment B on August 25, 2003 have been fully considered but they are not persuasive. In response to applicant's remarks on pages 7-10 that query the rejection of claims 1-4 and 10 made by the prior art references relied upon (Aszody and Burns) and the amendment to claims 1 and 10, #5,758,392 to Anscher et al has been cited which more clearly meets the limitations of applicant's claims. Accordingly, claims 1-4 and 10 remain rejected. Claims 5-9, 11 and 12 are allowed over the prior art of record.

### **Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.

Art Unit: 3677

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
